Point Pendant Light Extension

Product Information Document

The Point pendant is the result of a collaboration between product designer Alex Buckman and Città's 3D design team, David Moreland and Nikolai Sorensen. Awarded a Gold Pin at New Zealand's prestigious Best Design Awards in 2020.

The unique pendant makes a statement with its spherical hand-blown glass shade and pared-back aesthetic. The modular design gives you the ability to create a lighting configuration customised to your space. The shade is crafted by skilled artisans using traditional glass-blowing techniques. In the elaborate process, molten glass is handled on the end of a blowpipe and then mouth-blown into a fixed-shaped mould. This handcrafted nature may create some variations in colour.
